## How to Access Your Facility's Resident Lists For the Quality Measures

### **Accessing your Resident Lists for your Quality Measures Scores**

The resident listings are now in each facility's mailbox as a folder in the CMS MDS System, also known as the Quality Improvement Evaluation System (QIES). To access the listing, complete the following steps after starting your MDS system:

- “Welcome to the CMS MDS system.”
  - Click on CASPER Reports (Online Reports).
  - Click on “Connect to MDS online reports,” which will take you to the CASPER login page.
  - Enter your user ID and password (same user ID and password that is used to submit MDS).
  - Click the “OK” at the bottom of the page, right side. The CASPER home page should then display.
  - Select the “folders” tab on the top menu bar.
  - Click on the file with the asterisk before the name under the “Folders, My Inbox” heading.
  - Click on Public Reporting Resident Report file name. You must single click on the file name, not double click. Clicking on the ICON in front of the file name will not access the preview report, but will only bring up information on the document type, etc.

Quality Measures are now **only** available on the Nursing Home Compare website at [www.medicare.gov](http://www.medicare.gov). Future updates to the Quality Measures will only be available on the Nursing Home Compare website.
